

# FREE HOME SUSTAINABILITY ASSESSMENTS

- ✓ Save money on household water and energy bills
- ✓ Make your home more environmentally sustainable
- ✓ Improve the comfort of your home
- ✓ Qualify for an interest-free Green Loan

## Green Loans PROGRAM PARTNER

These free home sustainability assessments are funded by the Australian Government's Green Loans Program, which also funds interest-free Green Loans for recommended improvements.  
[www.environment.gov.au/greenloans](http://www.environment.gov.au/greenloans)

The Australian Government's Green Loans Program is providing free home sustainability assessments and interest-free Green Loans for recommended improvements.

The assessments (valued at over \$250) recommend tailored energy and water savings options. These may range from simple actions like switching to energy efficient lights and replacing shower heads, to larger scale changes such as installing rainwater tanks or solar panels.

### Three Easy Steps:

#### Step 1

Apply for a **FREE** home sustainability assessment

#### Step 2

Receive your **FREE** tailored home sustainability report

#### Step 3

Apply for a Green Loan to fund the home sustainability actions to suit your needs and budget

## Home Sustainability Assessment conditions checklist

An applicant must be:

- Aged 18 or over
- An Australian citizen, permanent resident and/or an Australian registered charity
- The dwelling owner, a trustee or renter listed on lease
- Have an income below \$250,000

The house/property being assessed must:

- Be in Australia or its territories and be a primary place of residence
- Have been completed and occupied for at least 12 months (not necessarily by the applicant)

Your local assessor is:
